

## Pupil PE/Sports Premium – (2020-21)

### Background:

The pupil premium is a government initiative that targets additional money at pupils from deprived backgrounds. Research shows these children can underachieve compared to their non-deprived peers. The premium is provided in order to support these pupils to reach their potential and narrow the gap between their achievement and the achievement of their non-deprived peers.

The PE and sport premium is designed to help primary schools improve the quality of the PE and sport activities they offer their pupils.

Schools receive PE and sport premium funding based on the number of pupils in years 1 to 6.

Playing sport helps to keep people healthy and is good for communities. Playing sport at school or in a local club is also the first step to competition at the highest level, which helps improve our reputation as a sporting nation, and contributes to economic growth.

But when people leave school they often stop playing sports, which means people can't fulfil their sporting potential, and can lead to a less healthy lifestyle. We want to get more people playing sport and doing physical activity safely from a young age, and help them keep playing sport throughout their life, no matter what their economic or social background.

We employ strategies that we know will support our pupils increase their attainment, and 'narrow the gap'. We are accountable for narrowing the gap, and there is a planned reform to the school performance tables to include new measures that show the attainment of pupils who receive the pupil premium compare with their peers.
