Dear Parents/ Carer,

The school nurse service will be coming into your child's school to deliver the hearing and vision screening to Year 1 children. This is an important assessment for your child as it allows for us to identify if there is any hearing or vision problems that may impact on your child's schooling. However, due to COVID and we have now commenced 2<sup>nd</sup> lockdown, we will endeavour to maintain a safe screening test for your child and their friends.

We will be wearing face masks (or visors) and gloves, the staff will have hand sanitizer and will be cleaning equipment between each child.

We will remain within a school bubble and not work outside that bubble we will ensure to complete the screening over 1 day but it may take up to 2 days in a larger school.

If you have any concerns with how we will be working then please call or email The School Nursing Team 02033168021 or [whh-tr.islingtonschoolnursing@nhs.net](mailto:whh-tr.islingtonschoolnursing@nhs.net) and ask for a team lead

Yours faithfully,

Islington School Health Team
